IbSB 2021

6th International Symposium on Image-based Systems Biology

Participate in the 6th International Symposium "Systems Biology of Microbial Infection" that will be held November 11-12 this year as a DIGITAL event:

www.systems-biology-microbial-infection.com

We have invited speakers who will present their highly interesting work and we are asking you to submit your abstract and consider to apply for the "Tandem-Talk" format. Abstract submission is possible until September 15, 2021.

You do not have to pay a fee for taking part in this event, but you have to register in order to receive the login details.

Looking forward to welcoming you soon.
